

# **Community Preschool, INC**

## **Vision, Mission, and Values**

### **Vision**

To provide the children of Loveland with a caring and stimulating environment for their first adventure into the world of education.

### **Mission**

We aim to meet the educational and developmental needs of the children we serve by offering a quality education at a reasonable tuition rate, providing our children with a diversity of experiences and role models, and giving families a chance to be intimately involved in their child's early-education experience.

### **Values**

Learning is a complex process resulting from the interaction of children's thinking and their direct experience in the world. A solid foundation of rich and varied experiences is crucial to all future learning. At Community Preschool our play-based curriculum will:

- Allow time for the child to explore and discover.

- Arrange the school environment to encourage independence and build responsibility.
- Provide tools and encouragement for creative expression through active participation in a developmentally appropriate environment.
- Foster feelings of high self-esteem and independence within a peer group of the same age, while learning to respect the rights of the group.
- Provide the security of being accepted away from home.
- Encourage growth in the five areas of child development (social / emotional, cognitive, language, gross motor skills, and fine motor skills).
